

**Art Libraries Society of North America, 34<sup>th</sup> Annual Conference  
Fairmont Banff Springs, Banff, Alberta, Canada, May 5-9, 2006**

**Membership Committee Meeting  
Saturday, May 6, 2006, 6:00-7:30 PM**

**Present:** Craig Fleming, Shalimar Fojas, Janine Henri (Chair), Vanessa Kam, Peggy Keeran (Board Liaison), Marilyn Nasserden, Alyssa Resnick, Rachel Resnik.

**Recorder:** Janine Henri, University of Texas at Austin

**Minutes:**

After introductions, committee members were reminded that 2005/06 committee activities were outlined in the annual report.

Janine Henri reported on the results of the non-renewals survey. Thirteen non-renewals and one renewing member elected to fill out the survey. In addition some prior members responded by rejoining ARLIS/NA. Thus this survey does not represent a valid statistical sample. Some survey respondents commented that they found ARLIS/NA members too snobby and/or not welcoming. Others found it difficult to attend meetings or participate in the society. A number of non-renewals were not able to find employment in the art library field or had left the field. Cost of membership was a factor for some in deciding not to renew, as was the fact that one's employer was a subscriber. The listserv, conferences, professional contacts, and publications were what former members liked the best about our society. The fact that we are an art-related organization was important to some, though we were also criticized for not being enough about art. Networking opportunities were mentioned as important benefits, and the lack of opportunities to 'associate' was bemoaned. More support for students and more mentorship of first time members were desired. Keeping the organization simple was recommended since numerous divisions, listservs, committees can fragment the organization and may leave some members feeling overlooked.

Rachel Resnik reported on her survey of membership benefits at comparable associations (see attached report). The committee decided to pursue the possibility of member discounts for ARLIS/NA publications and the possibility of negotiating museum entrance and museum bookstore discounts. We discussed requiring a subscription fee for access to the listserv, but were informed that this could not happen as long as the current university hosts the listserv. Other ideas discussed included ways of educating librarians (professional development & training; disseminating workshop content; a visual literacy course?), including fee-based streaming videos and a mentoring DVD. An instructional design task force might best address some of these suggestions.

Board Liaisons Peggy Keeran and Marilyn Nasserden reported on the need to increase membership dues and to devise a tiered membership approach with differing levels of benefits. The committee needs to devise a plan to un-bundle

membership services and should submit this plan to the Board by September 1. Other Board issues that may affect committee activities include a proposed RFP for revamping the society website. We should inform our liaison if we need committee web space on the AWS. Committee members were also reminded to submit a budget proposal to print membership brochures.

One question raised by the committee for the Board was whether we can feature business members on the "What Our Members are Saying" feature on the website.

Outgoing 2005/06 Committee members (Elise Brown, Susan Malkoff Moon, Jennifer Parker, and Board Liaison Peggy Keeran) were thanked for their service to the Society.
